CAT QUESTIONNAIRE

Welcome to the Sydney Animal Behaviour Service (SABS). Our aim is to help you understand why your cat is behaving the way it is and help your cat be the best cat it can be.

In order to do this before your consultation we need as much information about you and your cat as possible in order to give you the best advice.

Please answer the following questions as completely as possible and bring the completed form with you at the time of your appointment. If you have a Telephone Consultation scheduled, please either mail, or email the completed form to us, prior to that time along with a video of your pet. This video should be a “day in the life” of your pet- where it eats, sleeps and plays. It should NOT contain any episodes of aggression if that is the problem.

The completed behaviour record helps us to assess the environment, social interactions, and behaviour of your cat, and hence determine the possible cause(s), prognosis and specific treatment protocol for the behaviour problem(s). Specific questions about the problem behaviour(s) will be asked during your visit/telephone call.

Please fill in a separate form for each pet that has a behavioural problem. Please fill in as much as you can before the consultation to assist us during the behavioural assessment.

If you have any pedigree papers for your cat please bring them to the consultation.

We look forward to helping you and your cat soon.
